**SUPPLEMENTAL
REISSUE APPLICATION DECLARATION BY THE INVENTOR**

Docket Number (Optional)

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 5,245,736, granted September 21, 1993 and for which a reissue patent is sought on the invention entitled A Vacuum Process Apparatus,

the specification of which

☐ is attached hereto.☒ was filed on November 3, 1997 as reissue application number 08/962,776and was amended on _____
(If applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

☒ I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.☒ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

Claims 1 and 16 did not recite a necessary independent movement of the conveyors relative to the drive shaft, and were therefore too broad. Claims 1 and 16 also included unnecessary limitations in reciting that the at least two openings are provided for at least one of treating and handling at least one workpiece thereat, as well as in reciting that the at least two conveyors are arranged at the transport device and further that the transport arm for each conveyor projects from the drive shaft -- which limitations are unnecessarily narrow. In addition, original Claims 1-29 do not comprehensively cover the entire scope of the invention and therefore Claims 30-34 have been added to do so.
